

Meet Quaker, A Hero!

**Want to know the cause of a fire?
Quaker can tell you!**

Quaker is your canine arson investigator serving the City of Charlottesville and surrounding counties in Virginia.

- **Quaker** is brave, smart, and dedicated.
- **Quaker** can sniff out and identify 32 compounds.
- **Quaker** is able to tell if accelerants were used to start the fire; while it is up to the investigators to determine arson.
- **Quaker** saves your city or county countless man-hours each time he identifies the cause of a fire.
- **Quaker** can also tell if the fire was an accident, saving expensive lab fees.
- **Quaker** saves the City and taxpayers thousands of dollars a year.
